Workforce Registry Provider Change Notice

Dear Workforce Members:

On April 1, 2017, the Workforce Registry administered through Kean University's Professional Impact New Jersey (PINJ) will be transitioning to TCC Software Solutions, a company that is nationally recognized for innovative technology solutions and program management.

Ensuring confidentiality of our data and business continuity as we transition to TCC are paramount to this process. Therefore, be assured the Registry will continue to meet national standards and support our business practices with state-of-the-art technology and professional staff.

The Department of Human Services (DHS), Division of Family Development (DFD) would like to thank PINJ for its commitment and valuable services to the early childhood programs and child care community.

Given the intricacy of this project, there will be an overlap period where PINJ and TCC will both be under contract to ensure an effective and efficient transition for the workforce, providers, sponsoring agencies and trainers.

We know how important it is to keep you informed throughout the entire process and we are committed to providing you with ongoing updates. Information will be directly communicated to you, as well as made available through the PINJ website at <https://www.pinjregistry.org>; Grow NJ Kids, www.grownjkids.com; and DFD's child care subsidy program website at www.childcarenj.com.

During this transition, Kean University and PINJ staff will continue to be your main contact for all workforce registry related matters, technical assistance, customer service, trainer approval, training notices and scholarship services. If you have questions, you may contact PINJ at 908-737-4294.
